

PROPOSAL · ACE TRAINING & MULTISKILLS TRAINING

AI Review Auto-Reply

A smarter, lower-cost way to reply to every Google review across all your campuses - automatically.

Prepared for Larissa · ACE Training & MultiSkills Training · August 2026

Every Review Is a Future Enrolment

For two RTOs across multiple campuses, your Google reviews decide who enrolls next:

Reviews drive enrolments

Prospective students and corporate clients check your Google rating before they call. Unanswered reviews quietly cost enrolments.

Manual replies fall behind

Across ACE and MultiSkills and many campuses, replying to every review by hand is slow and easy to drop during busy intakes.

Silence weakens ranking

Google rewards businesses that respond. Reviews left unanswered hurt both trust and your local search position.

Negatives hit hardest

A negative review with no response is the first thing a prospect sees. A calm, timely reply changes the story.

You pay per location

Birdeye bills review management at \$95 per location, so the cost climbs with every one of your eight centers.

Two brands, double the work

Everything above happens twice, once for ACE and once for MultiSkills, doubling the manual effort.

Meet AI Review Auto-Reply

It connects to your Google Business Profiles and answers every new review automatically, in your voice.

Replies in your voice

Warm thank-yous for happy students, calm and professional responses to concerns - tuned separately for each brand.

Works around the clock

New reviews are answered within minutes, day or night, across every ACE and MultiSkills campus.

Safe by design

Low-star reviews are flagged to you first, so a person always handles the sensitive ones.

Priced per center

A simple \$20 per center for the review system, far below Birdeye, with managed listing updates on top.

In one line

Every review answered, on brand, within minutes - without anyone on your team lifting a finger, at a fraction of your current Birdeye cost.

Set Up Once, Then It Runs Itself

A four-step loop that starts the moment a review lands:

01

Connect

We securely connect to your Google Business Profiles for both ACE and MultiSkills. We handle the setup.

02

Detect

A new review lands and is picked up automatically within minutes - no checking, no polling on your side.

03

Draft

Our AI writes an on-brand reply matched to the review's content and star rating.

04

Post

The reply posts automatically. Negative reviews route to you for approval first.

Default mode is approve-first. Once you trust the replies, switch any brand to full auto with one toggle.

Reviews Automated, Listings Maintained

01

AI Auto-Reply

Every new Google review answered automatically, on brand, within minutes.

02

Approve-First Mode

Optional human approval before anything posts - full control when you want it.

03

Negative-Review Alerts

Instant notification the moment a low rating comes in, so nothing slips.

04

Unified Review Inbox

Every review and reply for both brands, all campuses, in one dashboard.

05

Monthly Report

Review volume, average rating and response rate at a glance, per brand.

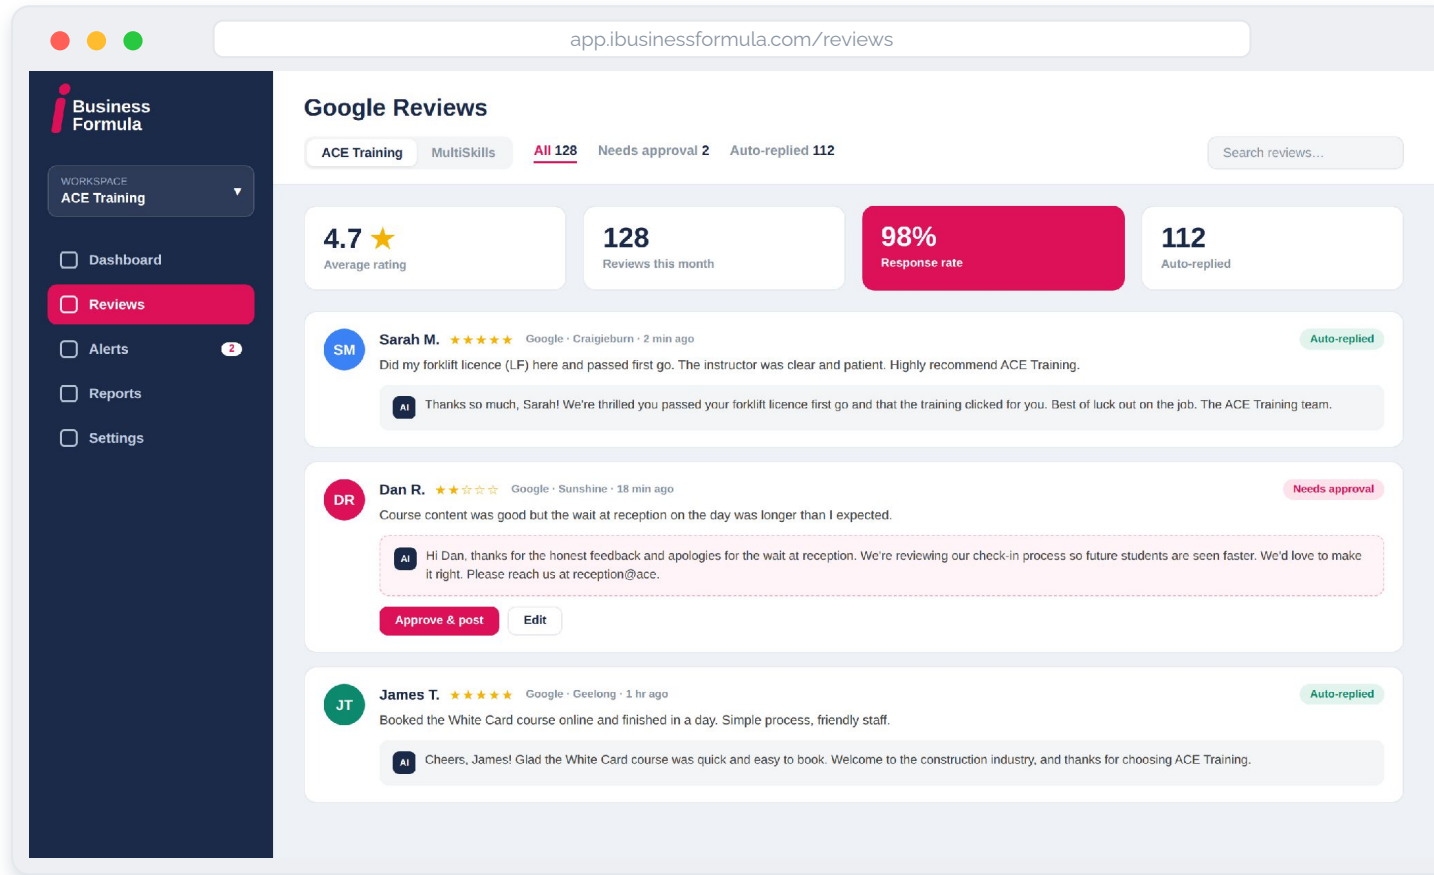

06

Managed Listing Updates

We manually keep your Google business info accurate each month, so your listings stay current.

SEE IT IN ACTION

Every Review, One Dashboard

Both brands, one place

ACE and MultiSkills, every campus, in a single inbox. No logging into Google.

AI replies, posted for you

Each review gets an on-brand response within minutes, tagged so you see what is automated.

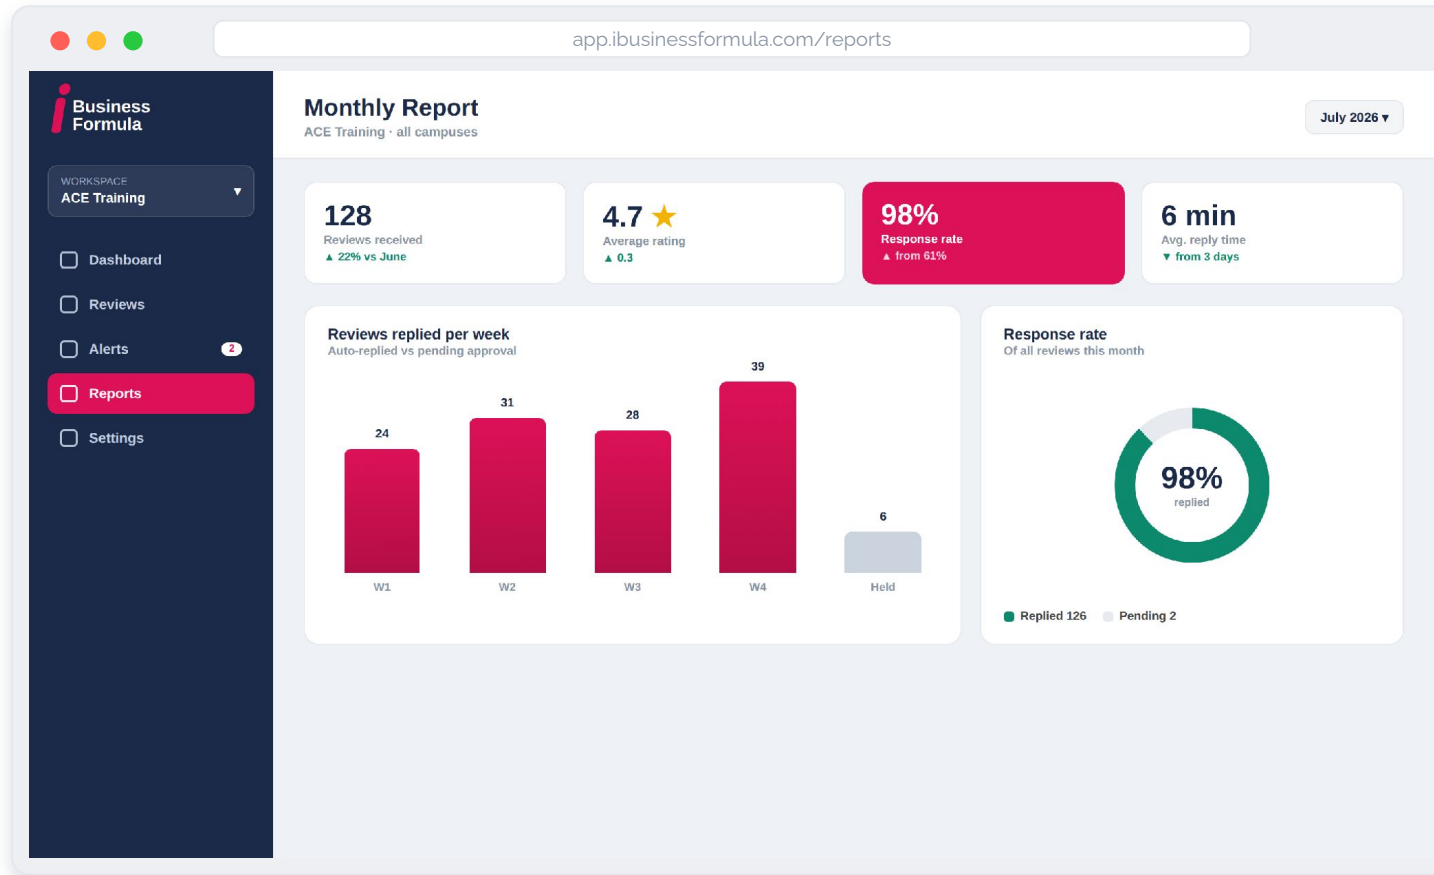

Negatives held for approval

Low-star reviews are flagged with a ready draft, so a person approves the sensitive ones.

SEE IT IN ACTION

Proof of Value, Every Month

A response rate that sells

Watch your reply rate climb from 61% to 98% - the signal both Google and prospects reward.

Clear ROI each month

Review volume, ratings and reply time in one report, so the value is never in question.

By brand and campus

Break results down by ACE or MultiSkills, or any single location, in one click.

Same Coverage, a Fraction of the Cost

WHAT YOU PAY BIRDEYE NOW

\$1,080

per month · reviews + listings, both brands (+GST)

- **Reviews management** \$95 x 8 centers = \$760
- **Listings / citations** \$40 x 8 centers = \$320
- **Billed per location** grows with every center

iBusinessFormula

\$260

per month · reviews + listings, all 8 centers (+GST)

- ✓ **AI review auto-reply** \$20 x 8 centers = \$160
- ✓ **Managed listing updates** \$100 per month
- ✓ **AI-tailored + approve-first** safety built in

You save \$820 every month - around \$9,800 a year - across both reviews and listings.

Same coverage on reviews and listings, at roughly a quarter of your current Birdeye cost. Simple monthly pricing, no lock-in, cancel anytime.

Up and Running in Two Weeks

We manage the whole setup, including the Google connection and approvals:

01

Connect & configure

We connect your Google profiles and tune the reply voice for each brand and campus set.

02

Review & refine

You approve sample replies and set the rules for which reviews auto-post.

03

Go live

Auto-reply switches on across ACE and MultiSkills. Replies start flowing.

04

Monitor & report

Ongoing monitoring, monthly reporting, and tone adjustments anytime you ask.

Ready to start?

Reply to approve and we'll book your setup. Live in about two weeks - saving over \$9,000 a year from day one.
